## CONSTELLATION MONOBLOC

DUAL-WEIGHT VERIFICATION | ROBOTIC PICK & PLACE | SERVO-DRIVEN

**Pharmaceutical Liquid  
Filling Monobloc with  
Robotic Pick & Place  
and Dual-Weight  
Verification**

The size and shape of certain vials and microtubes can make them difficult to stand on their own, adding difficulty in automated filling because they cannot be placed on a standard conveyor and moved from one machine to another...
