**CAPPING SOLUTIONS FOR POWDERS**

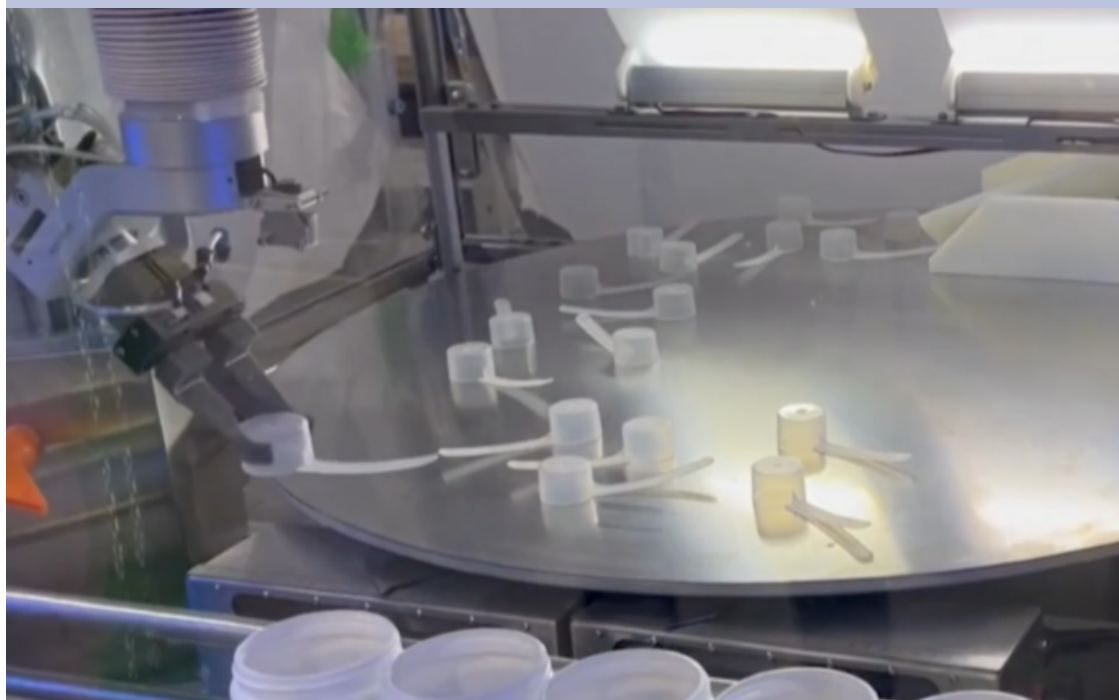

BellatRx recently completed a project for a client in the food supplement industry, who was in search of innovative capping solutions for their nutritional powder products. Utilizing our expertise in creating customized packaging solutions, we developed and implemented a system that significantly enhanced their production capabilities and efficiency.

The [Magna Capper](#) features a unique sanitary frame made entirely of stainless steel, requires no power accumulation, and offers a simple cleaning process. The system is equipped with an anti-dust cover at the machine's base and a vision sensor cap inspection system to ensure the highest level of quality control and cleanliness in our client's production line.

**Upcoming - Robotic Scoop Inserter**

We're always looking for ways to improve the packaging experience and meet the individual needs of our clients. That's why we're thrilled to offer a sneak peek of our innovative [Robotic Scoop Inserter](#), designed to optimize accuracy and efficiency in packaging lines. Our new automation technology features a robotic arm with a 4-axis range of motion and an actuated center gripping mechanism capable of picking up two scoops at a time. This technology not only guarantees precision, but also features high scoop inspection through-beam with reject and dust extraction at the neck of bottles for added safety and cleanliness.

**CUSTOMER TESTIMONIAL - LINE INTEGRATION**

We are delighted to share some recent feedback from one of our valued clients who came to us with the need for a fully integrated liquid filling packaging line solution for spirits and whiskey bottles:

*"Recently a BellatRx service technician visited our facility, and as usual, he was an immense help to us. His level of knowledge and professionalism is astounding and leaves us with a very good feeling about doing business with BellatRx. We can only hope to see more of this talented and amazing individual."*

Our team of experts, which includes knowledgeable service technicians like the one described above, allows us to deliver exceptional support to our clients. Such testimonials reaffirm our commitment to maintaining strong relationships with our clients and delivering superior quality.
