AQUARIUS MONOBLOC - LIQUID FILLING SOLUTIONS

BellatRx recently did a project for **natural nasal care products with spray pump caps with stems**. This video showcases the **Aquarius Monobloc** liquid filling machine featuring double index monobloc for spray pump caps with stems, servo 24 pocket indexing starwheel at 70 BPM, vibratory bowl sorting systems for spray pump caps, and cap indexing starwheel featuring stem aligner stations. With the Aquarius Monobloc, you can expect **precision, efficiency, and reliability**, revolutionizing your liquid filling and packaging process. LYNX - AUTOMATIC ROBOTIC FEEDING SYSTEM

The **Lynx** is an advanced automatic **robotic feeding system** designed for bottle handling, specifically for **Pharmaceutical** and **Nutraceutical** packaging lines. This innovative packaging feeding system uses **end-of-arm tooling, vision positioning, and robot mounting** to handle various packaging parts, such as desiccants, measuring cups, scoops, syringes, and more. The Lynx's **robotic arm technology** enables it to **pick and place** parts quickly and accurately, with the ability to adjust to various container shapes and sizes. Its adaptability and versatility make it an excellent choice for packaging companies looking to automate their processes and increase efficiency. With minimal changeover time and cost, the system can handle desiccants of different shapes and sizes, making it an ideal solution for companies with diverse product lines.
